

A laptop is open, displaying a Goodreads website. The website shows a search bar with the text 'Online Library' and a list of books. A large purple speech bubble-like shape is overlaid on the screen, containing the text 'Problem Statement'. Below this, a white rounded rectangle contains the text 'Building readers community on Goodread's'. The laptop is resting on a surface with several books visible in the background.

Problem Statement

Building readers community on Goodread's

Problem Statement

Goodreads is a site for readers and book recommendations, intending to help people find and share books they love. Even after years of acquisition by Amazon, Goodreads hasn't seen any changes or revamp in their app, the Play Store and App Store reviews are abysmal. We should revamp the entire look and feel of the platform, and we should build a social community for readers across the globe, by launching new features on the current app.

The Goodreads logo is centered within a large white circle. The word "goodreads" is written in a lowercase, brown, serif font. The letters are closely spaced, with the "d" and "r" having a slightly overlapping appearance.

goodreads

About Company

goodreads

Goodreads is an American social cataloging website and a subsidiary of Amazon that allows individuals to search its database of books, annotations, quotes, and reviews. Users can sign up and register books to generate library catalogs and reading lists.

What is the problem?

Nothings
Intresting

Not able to find
every book and
their reviews

Bad user
experience

Platform is not
interactive
